DETAILED ACTION

Specification

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections

Claim Rejections - 35 USC § 112

Claims 224-229 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Correction or clarification is required.

In claim 224, the recitation "or" on lines 36 and 40 is indefinite because it does not positively recite the claimed invention. The recitation "the respective ones" on line 33 lacks clear antecedent basis. It is unclear what the "ones" are and how the recitation "first connecting branch" is read on the preferred embodiment or seen on the drawings. The same is true for claims 225-227.

In claim 227, the recitation "second connecting branch defined by a respective fourth stage" on lines 1-2 is misdescriptive because it is inconsistent with what is recited in claim 224. For example, claim 224 recites on line 37 that the first connecting branch is defined by the respective fourth stage".

The remaining claims are dependent from the above claims and therefore also considered indefinite.

Allowable Subject Matter

Claims 201-223 and 230-231 are allowed because the prior art of record does not show the “amplifiers” and the” resistors” as combined in claims 201, 208, , 211 , 219 and 221.

Claims 224-229 would be allowable if rewritten or amended to overcome the rejection under 35 USC, 112 second paragraph, as set forth above and include all of the limitations of the base claim. These claims are allowed because the prior art of record fail to suggest “amplifiers” and the” resistors” as combined in claims 224
